Attention: BC Soccer Full and Associate Members (and affiliated soccer clubs)

From: BC Soccer

Re: Extension on timelines, Programming updates, Virtual Training, and Federal Government Support Program updates/information

As we have expressed previously, we are working to provide information and updates to our members (full and associate) and affiliated soccer clubs to best support them as we assess and work through the ongoing impacts of COVID-19.

Timeline Update

On March 19, 2020, we advised members and affiliated clubs to plan for no sanctioned soccer activity to occur in April 2020. As of today, April 15, 2020, we are **extending this to May 15, 2020**.

Importantly, we are operating under the guidance from the appropriate health authorities, including the [Order of the Provincial Health Officer](#) regarding mass gatherings and [Canada Soccer's Suspension of Sanctioned Soccer Activity](#).

We have been in regular communications with Canada Soccer regarding the suspension of all sanctioned soccer activity. They have advised that due to the uncertainty surrounding the impacts of COVID-19, they are not placing a timeframe on the suspension of soccer being lifted and will wait on decisions from appropriate health authorities. However, it is important to note that they have stated that regional differences will be taken into consideration and they will make decisions for BC in collaboration with BC Soccer and in alignment with the provincial health authorities.

Of course, if health authorities and Canada Soccer lift restrictions and the suspension, we will work to resume earlier.

Programming Updates and Information

As we work through these challenging and uncertain times, we continue to plan to get back to some form of soccer normalcy. In doing so, we are pleased to have shared over the last week or so, the following:

- Moving the delivery of Referee Refresher Clinic online - <https://bcsoccer.net/news/post/referee-refresher-clinics-will-now-be-available-on-line>
- Providing Individual Skills-Development Activities - <https://www.bcsoccer.net/skill-development-activities>

Further, we are working through the final stages with Canada Soccer to provide the theory/classroom portion online for community coaching courses (Active Start, Fundamental, Learn 2 Train and Soccer 4

Life). We are also working to do the same, in coordination with Canada Soccer, for the Referee Entry Level Clinic.

We are also continuing to work through the dates, time and information as outlined in our April 6, 2020 memo relating specifically to potential Provincial Cup delivery and Interior Season of play feasibility.

Virtual Training and Insurance

We are encouraged that the BC Soccer community is using this pause from play to explore on-line and virtual activities to remain engaged with participants and stakeholders. While the Coastal Region participants are registered, we feel it's important to remind all members and affiliated clubs that are offering virtual training sessions to ensure those participants are registered; allowing them to access insurance in the unlikely event of an injury during a virtual session. It is not our intent to prevent or stop virtual activity, rather inform our members and affiliated clubs and to ensure the safety and coverage of everyone participating.

Thank you all for your patience and support as we work to navigate these challenging times.

Canada Emergency Wage Subsidy (CEWS)

On April 2, 2020, we provided information on the Federal Wage Subsidy Program, which BC Soccer is exploring. Since then there has been more information provided. We have done our best to summarize the information below, however, for the most accurate information we strongly suggest you review the information on the Canada Government website. <https://www.canada.ca/en/department-finance/economic-response-plan/wage-subsidy.html>

Program highlights:

Note: These are program highlights only – please take the time to read the details in the link above to see how the program applies to your organization.

- Eligible employers include non-profit organizations and registered charities that have seen a drop of at least 15% in their March revenues (down from 30% in previously announced versions of the 75% subsidy program) and 30% in following months.
- For non-profits and registered charities, the calculation includes “most forms of revenue” but excludes revenue from non-arm’s length persons.
- A non-profit or charity **can choose to include revenue from government sources or not**, however, you must be consistent in your approach throughout the program period.
- Subsidy applies to remuneration paid between March 15 and June 6 and is the greater of:
 - o 75% of remuneration paid up to a maximum of \$874/week; or
 - o the amount of remuneration paid, up to a maximum benefit of \$847 per week or 75% of the employee's pre-crisis weekly remuneration, whichever is less.
- “Eligible remuneration” includes salary, wages, and other remuneration like taxable benefits.
- For employers that are eligible for both the CEWS and the 10% wage subsidy for a period, any benefit from the 10% wage subsidy for remuneration paid in a specific period generally reduces the amount available to be claimed under the CEWS in that same period.
- Payments will be made via cheque or direct deposit.

Applying for CEWS: Applications for the CEWS program must be made by your organization through the Canada Revenue Agency's "My Business Account" portal. No detailed information has been provided yet by the government, however, it is stated they it will be shortly.

The Canada Emergency Benefit Account ("CEBA")

The CEBA is another part of the Federal Government's COVID response that provides much needed credit for small businesses to pay for immediate operating costs such as payroll, rent, utilities, insurance, property tax, or debt service. It is 100% funded by the Government of Canada.

- It is available to Canadian employers with \$50,000 to \$1 million in total payroll in 2019 and operating as of March 1, 2020. This includes smaller businesses and other eligible employers such as not-for-profits.
- Under CEBA, financial institutions will be able to provide interest-free credit facilities of up to \$40,000 to eligible businesses.
- If the loan is repaid by December 31, 2022, 25% (up to \$10,000) will be forgiven.
- If the loan is not repaid by December 31, 2022, the remaining balance will be converted to a three-year term loan at 5% interest.

This program is now available at various financial institutions and credit unions.

If your organization is applying for a CEBA facility, most financial institutions are requesting that employers provide their T4 summaries from 2019. Therefore, you should be prepared to provide that information.

See below for previous memos from BC Soccer regarding COVID-19.

April 6, 2020

Attention: BC Soccer Full Members (and affiliated soccer clubs)

From: BC Soccer

Re: Spring/Summer Participation (including BCSPL), Provincial Championships Surveys, & Updates

Amid the current suspension of all soccer activity due to impacts of COVID-19 and the various uncertainties it brings, BC Soccer has received many questions regarding what soccer programming members will deliver across the province. There have also been many inquiries about BC Soccer's plans to deliver the annual Provincial Championships. As we all can appreciate, there are various unknown external factors; however, most importantly, the ability for teams from within the membership to participate is vital to delivering the Championships (if we are able to).

To better understand Members' current outlooks in these unprecedented times, over the past two weeks, BC Soccer has conducted a series of surveys regarding Spring/Summer soccer activities and Provincial Cup participation. We have also been in communication with Local Organizing Committees for the Youth Provincial Championships, service providers for the Adult Provincial Championships, along with ongoing correspondence with Canada Soccer.

Generally speaking, there is strong desire amongst the membership, and BC Soccer, to get back on the pitch as soon as we can, whether it be as originally planned, or in differently structured formats.

The paragraphs on the following pages summarize the survey findings regarding Spring/Summer play across the province in more detail and, having reviewed these results in conjunction with other information gathered, also provides our preliminary assessment regarding Provincial Championships.

Important Note

It is important to state that we are currently adhering to:

- The [Order of the Provincial Health Officer](#) regarding mass gatherings which currently has an expiration date of May 30, 2020, and
- [Canada Soccer's Suspension of Sanctioned Soccer Activity](#).

Therefore, the below information and associated dates for any decisions for return to play, would only be acted upon if the above two restrictions are lifted within the stated timelines. Additionally, since the survey circulated, some municipalities have withdrawn field permits until specific dates in the future. Each municipality is handling the situation slightly differently, thus, regional decisions will also impact any return. Lastly, any form of return to play must also be done responsibly with the health and safety of all participants as a top priority.

Thank you for your understanding and patience as we work through this challenging and uncertain time!

Programming Update	9

Youth Spring/Summer Participation

Interior Play

As the Interior Primary Playing season begins April 1st, BC Soccer surveyed the twenty-four (24) Youth District Members to determine the level of soccer programming each would be able to offer at given dates depending on the suspension of soccer activity being lifted. Youth District Members that play in Interior Primary Playing season represent the regions of Thompson Okanagan, Kootenay/Rockies, and Northern BC.

Nineteen (19), of the twenty-four (24), Youth District Members responded and participated in the survey. The majority of respondents stated that May 15, 2020 would be the date their District would need the soccer suspension to be lifted in order to deliver this year's soccer programming as originally planned. However, all respondents indicated that if the soccer suspension was lifted after May 15, they would seek to deliver alternative soccer programming. In addition to training and exhibition matches, many Districts noted providing a series of age specific jamborees and in-district tournaments would be amongst the options available. All but two Districts would seek to extend their playing season later into the Summer and/or Fall (weather permitting).

Coastal Play

The Coastal Secondary Playing Season takes place in the Spring/Summer and overlaps with the Interior Primary Season. BC Soccer surveyed Coastal Youth District Members to determine the level of soccer programming each would be able to offer at given dates depending on the suspension of soccer activity being lifted.

Generally, the majority of respondents said they would require soccer activity to resume by May 1st to continue Spring/Summer programming as planned. Approximately half of respondents would still seek to deliver alternative programming in the format a shortened spring season for organized games, summer camps, and drop-in sessions.

Many responses noted that the level of soccer programming within their District was related to participation in the Cascadia Soccer League, a BC Soccer sanctioned Youth Inter-District League. As of April 2nd, representatives from Cascadia Soccer League confirmed that they would seek to have some form of a spring/summer season if soccer resumed by July 15th.

Youth Provincial Championships

When soccer activity was suspended the Coastal regular playing-season had completed and teams for the regional playdown/qualifying competition (Coastal Cup) had been determined. While the Coastal Cup Committee came to the difficult decision of cancelling Coastal Cup playdowns this year in a memo circulated April 1, 2020, the Committee has also stated that they would be able to provide teams for Provincial Cup should soccer activity resume and Provincial Cup go ahead.

With the Interior Playing season, under normal circumstances, about to get underway, BC Soccer surveyed all Interior Youth District Members to determine their capability to have teams participate in regional playdown competitions and/or Youth Provincial Cup at given dates should soccer activity resume. The majority of Interior Youth Districts stated that sanctioned soccer activity would need to resume by either May 15, 2020 or June 1, 2020 for them to participate in the Provincial Championships. However, some indicated that after these dates, their District would seek to provide team(s) if possible.

The holistic safety of all participants is of the utmost importance to BC Soccer. As BC Soccer continues to navigate through these unknown circumstances, we must consider the realities of teams/participants willingness or not to travel, stay in hotels and carpool, etc. Further, BC Soccer must consider logistical realities such as the potential economic impact COVID-19 has had on families; as well as, the timing of playing seasons, field/facility availability, etc.

Currently, BC Soccer has not completely ruled out delivering 2020 Youth Provincial Championships; however previously communicated dates, locations and competition formats may change.

We have been in communication with the 2020 BC Soccer Youth Provincial Cup hosts (Coastal FC, North Okanagan Youth Soccer Association and Kamloops Youth Soccer Association) regarding their continued ability to host Provincial Cup (if they proceed). In all cases, hosts remain committed to hosting Provincial Cup, if offered, and remain flexible to support BC Soccer moving forward.

BC Soccer appreciates that some Members and affiliated clubs are eager to know whether BC Soccer will proceed with Youth Provincial Championships. As the COVID-19 situation rapidly changes each day, BC Soccer has determined it more prudent to continue to gather information, so decisions are made responsibly, without haste and without potentially missing opportunities to return to the pitch. With

that in mind, BC Soccer will seek to provide more resolute plans by the end of April 2020 or into May 2020.

Depending on decisions made over the coming months, BC Soccer will seek to evaluate the viability and/or explore options to host Provincial Championships in competitions that lead to national competitions (Premier Cup) should soccer activity not resume by June 15, 2020. Notably, Canada Soccer has advised that it will decide whether National Championships will proceed by June 30, 2020.

Adult Spring/Summer Participation

Associate Adult League Play

Eight (8) of the seventeen (17) Associate Adult Leagues responded to the survey which was conducted to determine the level of soccer programming each would be able to offer at given dates depending on the suspension of soccer activity being lifted.

The majority of respondents said if soccer activity was able to resume by either June 15, 2020 or July 1, 2020, their respective league would be able to continue with their regular soccer league play as planned. After these dates, approximately half of Associate Adult Leagues would still seek to deliver soccer programming by either extending the season into Summer and/or unstructured, drop-in formats of play.

Full Member Adult League Play

Of the five (5) Full Member Adult Leagues that deliver Spring league play, four (4) responded to the survey. Two (2) of the Leagues will plan to provide their regular Spring programming if soccer activity resumes by June 1, 2020. If soccer activity resumes after June 1, 2020, one League did intend to deliver alternative programming.

Adult Provincial Championships

Overall, the feedback received from participating Full Member Adult Leagues is very encouraging. Leagues are keen to maintain current Provincial Cup allocations and size. Prior to the suspension of soccer activity, Adult Leagues were close to completing their regular season play and league cup playdowns. While the majority of Adult Leagues stated that they could determine teams to fill their allotted Provincial Cup berths without completing their leagues' matches, there was a preference to have time to either complete league matches, or, allow time for teams to train and regain fitness levels prior to BC Soccer Provincial Cup playdowns beginning.

If soccer were able to resume in May 2020, there was general support from Leagues to play over May Long weekend, which is usually provided as a "catch up" weekend, though it was acknowledged that all players may not be available.

There was not consensus on the latest possible start date for Adult Leagues (to ensure full participation in Provincial Cup) as answers range of June 1, 2020 to July 15, 2020.

Since the survey was conducted, BC Soccer has become aware that some local municipal park boards have already determined that fields/facilities in their areas will not open until the beginning of June, so even if soccer were to resume prior to this date, there would likely be challenges for some teams/leagues to find fields. Additionally, there may be restrictions on the number of people allowed for “group” gatherings, which would potentially affect the ability to have a match.

With all the above taken into consideration BC Soccer has determined:

- If at any point soccer activity resumes before, or by, June 1, 2020, BC Soccer will seek to host Adult Provincial Championships in all competition categories. A minimum of one week will be allotted for Adult Leagues to have any last league matches leading into the start of playdowns which would begin with Men’s B Cup round of 16 teams. Men’s B Cup preliminary matches would not take place. Based on this, the latest date to host Provincial Cup Finals would be the weekend of July 4 and 5, 2020.
- If soccer activity were to resume at date between June 2, 2020 and by, June 15, 2020, BC Soccer will seek to host Adult Provincial Championships in all competition categories. Similarly, a minimum of one week will be allotted for Adult Leagues to have any last league matches leading into the start of playdowns; however, these would begin from a round of 8 teams (maximum) in all categories. Based on this, the latest date to host Provincial Cup Finals would be the weekend of July 11 and 12, 2020.

Over the coming months, BC Soccer will seek to evaluate the viability and/or explore options to host Provincial Championships in competitions that lead to national competitions (A Cup and Masters A Cup) should soccer activity not resume by June 15, 2020. Notably, Canada Soccer has advised that it will decide whether National Championships will proceed by June 30, 2020.

BC Soccer Premier League (BCSPL)

The BCSPL 2020 Season kick-off approximately two weeks prior to the suspension of all sanctioned soccer activity. BC Soccer and BCSPL Personnel have been in correspondence with the participating clubs which included a survey on feasibility of Phase 1 of the 2020 season (Spring/Summer 2020). Overall, the general consensus amongst the clubs is be able to get back to playing as quickly as responsible once the health authorities and Canada Soccer has lifted restrictions. There have been various contingency plans developed and communicated within the BCSPL stakeholders and final decisions will be made within the coming weeks/month.

Refunds that BC Soccer Affects

COVID-19 has impacted all of us individually, organizationally, and collectively as a soccer community. BC Soccer would like to inform the members, affiliated soccer clubs, and soccer community that any event-based activity where BC Soccer collects a fee for service that was scheduled to occur from March 13, 2020, has been or is in the process of being refunded. These refunds include, Tournament Sanctioning Applications, Team Travel Application/Permits, Short-term Player Permits, Referee Clinic Fees*, and Coaching Course Fees.

**Solely for Referee Clinics, individuals have also been provided the option to transfer their fee to a future course if they choose.*

Further, we understand that organizations within our membership are working to plan for soccer to return at a point in the future. In doing so, we encourage those organizations to be mindful of the impacts that COVID-19 is having on people and families within their communities (i.e. potential employment insecurity, loss of income, etc.). Therefore, we suggest that any communications that an organization is sending out to its members and any decisions that are being made, acknowledges the current situation we are all facing and provides appropriate accommodations under the circumstances.

Programming Update

With the suspension of soccer activity, there has been no physical programming delivery. Therefore, we continue to explore alternate formats and deliver models. We are pleased to advise the membership that as of this week, we will be offering the Annual Referee Refresher Clinic online to all BC Soccer registered referees. We will also be providing some simple at home individually soccer activities to keep players active during this time. Lastly, we continue to explore with Canada Soccer the ability to offer online coaching education for the community stream of coaching courses and hope to have more detailed information to share in the coming weeks.

Please continue to check the BC Soccer website for more information as we work to introduce the above initiatives.

See below for previous memos from BC Soccer regarding COVID-19.

April 2, 2020

Attention: BC Soccer Full and Associate Members (and affiliated soccer clubs)

From: Jason Elligott, Executive Director, BC Soccer Association

Re: COVID-19 update – Federal Wage Subsidy Program Information

As we have expressed previously, we are working to provide information and updates to our members (full and associate) and affiliated soccer clubs to best support you as we assess and work through the ongoing impacts of COVID-19.

As a collective soccer community, we are working under great uncertainty regarding when the suspension of soccer activity will be lifted by Canada Soccer. Based on our ongoing discussions with Canada Soccer, and rightfully so, their decision will be based on guidance and the lifting of health authority restrictions. It is important to also note that regional differences may be considered in their decision making as the realities of each province and territory is different. Safety is the priority.

Much of the soccer activity within BC Soccer's membership is overseen and, in many cases, operated solely by volunteers. However, some individuals work full and part-time in our game as employees and/or contractors at different levels (i.e. club, academy, league, district, etc.). We understand that the current situation may bring heightened concerns for those individuals.

Over the last couple of days, more detailed information has been shared by the federal government regarding the 75% Canada Emergency Wage Subsidy Program. To help support our members and affiliated clubs (the employers), we have pulled together the below information as it may help you with your decision making while managing your soccer organization during this uncertain time.

Importantly we have used our best efforts to summarize the information which we are sharing (below) for information purposes. We suggest you review the information provided in the link to ensure you have the most current details on the program.

The Canada Emergency Wage Subsidy Program - <https://www.canada.ca/en/department-finance/news/2020/04/the-canada-emergency-wage-subsidy.html>

Note – We understand the program still requires approval from Parliament and the date of this is currently not know.

Objective

The program's main objective is to support employers by providing them with 75% of salary up to \$58,700 per year (up to \$847 per week), per employee to keep them fully employed between March

2020 and May 2020 if the organization meets the eligibility criteria. It's designed to essentially provide the workforce with confidence, to promote continuity of wages, and encourage rehiring.

Eligibility

The program is available to non-publicly funded businesses, non-profits, and charities. Publicly funded bodies are not eligible and are defined as municipalities and local governments, Crown corporations, public universities, colleges, schools, and hospitals. Therefore, most organizations within Soccer's membership should be eligible.

Timeframe

If eligible, the program is available for up to three months retroactive to March 15, 2020, and organizations must apply monthly. Below is the information shared on the federal website.

Eligible Periods	Claiming period	Reference period for eligibility
Period 1	March 15 – April 11	March 2020 over March 2019
Period 2	April 12 – May 9	April 2020 over April 2019
Period 3	May 10 – June 6	May 2020 over May 2019

A decrease in Gross Revenue

Organizations must (generally) compare revenues to the same month from last year (March 2019 to March 2020, April 2019 to April 2020, and May 2019 to May 2020) and demonstrate a 30% decline in "gross" revenues for each month. From what we understand there will be some flexibility in this approach (i.e. if it can't compare to last year, for example, start-ups). However, if the flexible approach is attempted, it is important to demonstrate that point of comparison for the 30% drop is reasonable, examples given are a prior month or another comparable month (i.e. likely all about finding a reasonable point of reference).

Application Process

We understand that:

- the application will be done through a CRA Portal (via MY CRA and/or separate web-based platform) and they are still currently developing the application and questionnaire to support the process,
- the portal should be set up in next three to six weeks,
- any payments will likely take a further few weeks after application approval and will likely be provided by direct deposit into the organization's bank account,
- employers will have to reapply monthly, and
- it is important to note that employers will have to attest that they are doing everything they can to pay the remaining 25% of employee's wages which will presumably be by formal attestation.

Caveats

- We understand that cash flow may be taken into consideration. However, it is not clear.
- The government has stated that the overall process being put in place is a "High Trust" one and they will take "decisive action for bad actors" for breaking any trust.
- Organizations must work towards reasonable due diligence and document retention.

10% Wage Subsidy - <https://www.canada.ca/en/revenue-agency/campaigns/covid-19-update/frequently-asked-questions-wage-subsidy-small-businesses.html>

On March 18, 2020, the Prime Minister announced a temporary 10 per cent wage subsidy.

Members and affiliated clubs should know that, based on our understanding, you can apply for **both** the 10% Wage Subsidy announced on March 18, 2020 **and** the 30% Canada Emergency Wage Subsidy Program outlined above.

For employers that are eligible for both programs, any benefit from the 10 per cent wage subsidy for remuneration paid in a specific period would generally reduce the amount available to be claimed under the Canada Emergency Wage Subsidy in that same period. It is important to note the condition of keeping people employed (and paid).

Therefore, it is suggested in order to assist with any immediate cash-flow needs, members and affiliated clubs may wish to apply for the 10% wage subsidy immediately until you are able to determine if you are eligible for the 30% wage subsidy. If you are not eligible for the 30% Canada Emergency Wage Subsidy Program, you still qualify for the 10% Wage Subsidy.

BC Soccer Support - As you work through this information, if you have any questions please feel free to contact Stephen Wurz, BC Soccer Director of Finance at stephenwurz@bcsoccer.net.

Should you have any other questions that you feel BC Soccer can support you with, please note that staff are available and can be contacted primarily via e-mail in the first instance.

Re: COVID-19 update – Sharing Information during Uncertain Times – Legal Webinar

Alongside our members and affiliated clubs, we are operating in uncertain, unprecedented, and challenging times. As we have expressed previously, we are working to provide information and updates to our members (full and associate) and affiliated soccer clubs to best support them.

With that in mind, we are please to advise you of a webinar being facilitated by a lawyer firm in Ontario designed to support sports organizations and clubs across Canada that are dealing with funding and employment issues as a result of COVID-19.

The below information is solely being provide for information purposes.

DETAILS

 **WEBINAR**

 **Fri. April 3, 2020**
12:00 p.m. - 1:00 p.m. EDT

[RSVP to this webinar](#)

Sports organizations and clubs across Canada are grappling with funding and employment issues in the wake of COVID-19.

National and regional not-for-profit sports programs and clubs are facing the loss of programming and a decline in revenues during a pandemic that has prompted the closure of facilities nation-wide.

To learn more about financial support and assistance to sports organizations from the federal and provincial governments, join us at a webinar on **Friday, April 3 at 12:00 p.m.** Along with Anne Merklinger from Own the Podium, lawyers from Gowling WLG will discuss relevant short- and long-term financial programs and supports that will enable sports organizations to navigate through these challenging times. RSVP now to reserve your spot.

Re: COVID-19 update – Sharing Information during Uncertain Times

Our collective communities continue to feel the impacts of COVID-19. As we have expressed previously, we are working to provide information and updates to our members (full and associate) and affiliated soccer clubs to best support them during this rapidly changing and unprecedented times.

We have heard from many organizational leaders and individuals within our soccer and sporting communities, all expressing similar concerns; everything from when we will get back to playing our sport, to ensuring the health/safety of our people is the priority, to the economic impact COVID-19 will have on our sector in both the short and longer-term. These concerns are not lost on us and we share them with you, not only in our province with our members, clubs, and communities but also across the country. We too are working through this difficult, uncertain and unpreceded time with optimism for when we will get back to some form of soccer normalcy soon.

Announcements have been made at the federal and provincial government levels over the last few days/weeks, speaking to the economic impact of COVID-19 on businesses and individuals. To help support our members, affiliated clubs and the people within our communities, we have listed below some of the items that may support you while managing your soccer organization during this uncertain time.

As we all know the situation is changing on a daily basis, therefore, we have used our best efforts to have the most up to date information for you, however, we suggest you use the links provided to ensure the information is the most current.

Federal Government Financial Initiatives: [Canada's Covid-19 Economic Response Plan](#)

Support for Individuals – Available Immediately

Flexibility for Taxpayers

- Deferral of 2019 income tax filing until June 1, 2020
- Deferral of income tax payments until After August 31, 2020. This includes amounts owed on 2019 income tax filing as well as 2020 installment payments. No penalties or interest will be charged

Support for Individuals – Awaiting Royal Assent

- Goods & Services Tax Credit: Low- and modest-income families who qualify for the Goods and Services Tax Credit can receive a one-time HST payment by early May 2020 of approximately \$400 for singles and \$600 for couples.
- Canada Child Benefit: An additional \$300/child as part of their May 2020 payment
- Canada Student Loans: 6-month interest-free moratorium on repayment for Canada Student Loans
- Mortgage Default Management tools: Canada Mortgage and Housing Corp is providing mortgage payment relief by permitting lenders to allow payment deferral. Contact mortgage provider for details.

Important Note: As of March 26, 2020, it is our understanding that these initiatives are not approved as there are limited details available. Please check the following link for the most up to date information - https://www.canada.ca/en/department-finance/news/2020/03/canadas-covid-19-economic-response-plan-support-for-canadians-and-businesses.html?mc_cid=a8795eede8&mc_eid=57ad4396aa

Support for Workers – Requiring Royal Assent

Emergency Response Benefit: To support workers and help businesses keep their employees, the government has proposed legislation to establish the Canada Emergency Response Benefit (CERB). This taxable benefit would provide \$2,000 a month for up to four months for workers who lose their income as a result of the COVID-19 pandemic. The CERB would cover Canadians who have lost their job, are sick, quarantined, or taking care of someone who is sick with COVID-19, as well as working parents who must stay home without pay to care for children who are sick or at home because of school and daycare closures. The CERB would apply to wage earners, as well as contract workers and self-employed individuals who would not otherwise be eligible for Employment Insurance (EI).

Additionally, workers who are still employed, but are not receiving income because of disruptions to their work situation due to COVID-19, would also qualify for the CERB. The portal for accessing the CERB would be available in early April. More information can be found here - <https://www.canada.ca/en/department-finance/news/2020/03/introduces-canada-emergency-response-benefit-to-help-workers-and-businesses.html>

Additional benefits: For individuals without paid sick leave who are sick, quarantined or forced to stay home to care for children or someone who is sick:

- 1 week waiting period for Employment Insurance claims removed for those individuals forced or recommended to be in quarantine or isolation.
- Waiving the requirement to provide medical certificate to access EI sickness benefits

Provincial and Territorial Government Business and Employee Initiatives

Most provinces have announced some form of relief for businesses and employees in relation to COVID-19 as well as updated resources for those experiencing mental health challenges. Here is the link to BC information - <https://www2.gov.bc.ca/gov/content/safety/emergency-preparedness-response-recovery/covid-19-provincial-support>

BC Employment Standard Act

BC Soccer is not in the position to provide legal guidance regarding employment or temporary measures that organizations may choose to take. However, it is important to note that if organizations are considering temporary layoffs, they must abide by the BC Employment Standards Act.

We suggest you seek guidance from your legal counsel to ensure any steps you are considering are compliant with the act, linked here - <https://www2.gov.bc.ca/gov/content/employment-business/employment-standards-advice/employment-standards/termination#laying-off>

BC Soccer is also exploring ways to further support you in this and other areas.

Soccer Specific Reminders

- Canada Soccer has suspended all sanctioned soccer activity (March 13, 2020). <https://www.canadasoccer.com/canada-soccer-announces-suspension-of-all-sanctioned-soccer-as-precaution-against-covid-19-p162613>
- BC Soccer informed the membership and affiliated clubs of the wider reaching suspension (March 13, 2020). <https://bcsoccer.net/news/post/bc-soccer-suspends-sanctioned-soccer-activity-regarding-concerns-over-the-spread-of-covid-19>
- Latest updated from BC Soccer advising membership and affiliated clubs to plan to not have soccer activity in April 2020 (March 19, 2020). <https://bcsoccer.net/news/post/bc-soccer-operations-and-logistics-update-march-19>

BC Soccer Office and Contacts

Please do not come to the BC Soccer office, rather connect with BC Soccer personnel via phone/e-mail.

We must also continue to work together as a collective community and follow the direction from the appropriate health authorities, which BC Soccer is doing.

Safety Precautions

As a reminder, please follow the direction from the appropriate health authorities and BC Centre for Disease Control recommendations the following for reducing the risk of exposure to novel coronavirus:

- Wash your hands frequently (it is the single most effective way of reducing infection spread).
- Practice other good hygiene habits: do not touch your face/eyes/mouth with your hands and cover your mouth and nose when you sneeze or cough (ideally with a disposable tissue or the crease of your elbow).
- Clean and disinfect frequently touched workspace surfaces.
- Maintain good general health (eat a balanced diet, get enough sleep, exercise in moderation).
- Stay home if you are sick.
- Contact 8-1-1 (HealthLink BC) or your health care provider for questions about your personal health situation.

Re: COVID-19 update – Information and Reminders

Our collective communities are feeling the impacts of COVID-19. As the situation continues to change rapidly, BC Soccer is working to provide information and updates to our members (full and associate) and affiliated soccer clubs to best support them.

Please ensure you read this memo thoroughly as it contains important information and updates.

Reminders

- Canada Soccer has suspended all sanctioned soccer activity (March 13, 2020). <https://www.canadasoccer.com/canada-soccer-announces-suspension-of-all-sanctioned-soccer-as-precaution-against-covid-19-p162613>
- BC Soccer informed the membership and affiliated clubs of the wider reaching suspension (March 13, 2020). <https://bcsoccer.net/news/post/bc-soccer-suspends-sanctioned-soccer-activity-regarding-concerns-over-the-spread-of-covid-19>
- Latest updated from BC Soccer advising membership and affiliated clubs to plan to not have soccer activity in April 2020 (March 19, 2020). <https://bcsoccer.net/news/post/bc-soccer-operations-and-logistics-update-march-19>

Federal Government Wage Subsidy

The Federal Government announced on March 19, 2020 a Wage Subsidy that small businesses and non-profits may qualify for. To summarize, the Federal Government has planned to provide eligible small employers a temporary wage subsidy for a period of three months. The subsidy will be equal to 10% of remuneration paid during that period, up to a maximum subsidy of \$1,375 per employee and \$25,000 per employer. They have stated that all will be able to benefit immediately from this support by reducing their remittances of income tax withheld on employees' remuneration. As we currently understand it, there is no subsidy application and the process is to simply make the deduction on the CRA remittance.

More Information can be found here - <https://www.canada.ca/en/department-finance/news/2020/03/canadas-covid-19-economic-response-plan-support-for-canadians-and-businesses.html>

Insurance Update – Markel Canada

BC Soccer is disappointed to inform the membership that on March 19, 2020 we were informed by our Insurance Broker (SBC Insurance Agencies Ltd.) that Markel Canada (insurance underwriter) has issued a Contagion Exclusion which basically states that effective April 1, 2020 there is an exclusion on covering claims related to COVID-19. Accompanying this memo is the notice we received. Further, aligned with the suspension of all sanctioned soccer activity, they have also advised us that we do not have any travel insurance. Once we get through the current situation, we will be able to once again obtain appropriate travel insurance to support our members and affiliated clubs.

Soccer Activity Occurring

BC Soccer has received messages from people within the community (soccer and other) expressing concerns over seeing club teams and other groups practicing/play soccer.

BC Soccer reminds all members and affiliated clubs that if any members, affiliated clubs and teams are participating in such activity, it goes against the suspension of all soccer activity. Therefore, complaints received will be reviewed in accordance with the Judicial Code and Policies of BC Soccer.

Planning for Soccer Normalcy in a Respectful and Responsible Manner

It is a difficult and challenging time for everyone right now. Adding to this, is trying to plan for soccer activity in the future with the uncertainty on when the suspension will be lifted (which will need to be aligned to the local, regional and national health authorities).

We are all hopefully that we will get through this situation sooner rather than later and get back to more normal times. Further, we understand that organizations within our membership are working to plan for soccer to return at a point in the future. However, we encourage those organizations to be mindful of the impacts that COVID-19 is having on people and families within their communities (i.e. potential insecurity on employment, loss of income, etc.). Therefore, we suggest that any communications that an organization is sending out to its members, acknowledges the current situation we are all facing and provides appropriate accommodations under the circumstances.

BC Soccer Office and Contacts

Please do not come to the BC Soccer office, rather connect with BC Soccer personnel via phone/e-mail.

We must also continue to work together as a collective community and follow the direction from the appropriate health authorities, which BC Soccer is doing.

Safety Precautions

As a reminder, please follow the direction from the appropriate health authorities and BC Centre for Disease Control recommendations the following for reducing the risk of exposure to novel coronavirus:

- Wash your hands frequently (it is the single most effective way of reducing infection spread).
- Practice other good hygiene habits: do not touch your face/eyes/mouth with your hands and cover your mouth and nose when you sneeze or cough (ideally with a disposable tissue or the crease of your elbow).

Re: COVID-19 update – soccer operations and logistics

As Canadian governments, communities and citizens continue to adapt to the rapidly changing situation caused by COVID-19, BC Soccer is continuing to work to provide information and updates to our members and affiliated soccer clubs.

We must also continue to work together as a collective community and follow the direction from the appropriate health authorities, which BC Soccer is doing.

As stated in our March 17, 2020 Memo, BC Soccer is working under a two-week review and decision-making process to cancel and/or postpone programs and activity that BC Soccer directly operates. We understand that longer timelines may be needed at the local levels and having a consistent timeline that everyone across the province is working with would be helpful. Therefore, **BC Soccer is advising members and affiliated clubs to plan for soccer activity to NOT occur in April 2020.** Of course, if Canada Soccer's suspension is lifted earlier, we will work to resume earlier.

We are in the process of developing contingency plans and BC Soccer personnel may be in touch with you (districts/leagues) via phone/e-mail/survey to gather information on the realities of your local situation. We thank you for providing us any information that you can, which will help to best plan and prepare for when soccer can get back to normal.

Like all of you are doing within your respective communities, we are doing the best that we can to support you and your local community. Thank you for all that you are doing. With all of us working together, and supporting one another, we will get through this and get back to what we all love....playing our game!

BC Soccer Office and Contacts

Please do not come to the BC Soccer office, rather connect with BC Soccer personnel via phone/e-mail.

From: BC Soccer Association

Re: COVID-19 update – soccer operations and logistics

We are all experiencing challenging times right now with much uncertainty. BC Soccer is here and committed to providing information and updates as more information becomes available.

The health and safety of the community is of the utmost importance. By working together as a collective community and following the direction from the appropriate health authorities, including the Public Health Agency of Canada and BC's Ministry of Health, we can all help.

Current Situation (as it related to soccer in BC)

Currently, as you all know, sanctioned soccer activity has been suspended by Canada Soccer. At this time, we do not know the length of the suspension, however, Canada Soccer will be keeping us updated and informed on an ongoing basis.

As a reminder, sanctioned soccer activities include, but are not limited to, all competitions, training, practices, matches, coach and referee education and team building activities. The intent of this suspension is to limit situations of physical contact.

BC Soccer understands that the longer the suspension is in place, the collective soccer community's level of concern will rise. At the organizational level (clubs, districts, leagues, etc.), we understand the suspension has, and will continue, to impact soccer operations. Everything from canceling Spring Break programming to concerns over when the suspension is lifted and being able to fulfill league schedule, playdowns, and start up of interior season of play. BC Soccer is also directly impacted by the suspension of soccer activity.

Therefore, we want to take this opportunity to inform the members and affiliated clubs on the steps BC Soccer is currently taking to work within Canada Soccer's suspension. We will be working under a two-week review and decision-making process to cancel and/or postpone programs and activity (that BC Soccer directly operates) as more information is known on the current situation.

Short-term (March and April)

- We have canceled/postponed programs and activity BC Soccer directly operates/facilitates for the rest of March 2020.
- We are currently not scheduling programs and activity BC Soccer directly operates/facilitates for April 2020.

- For any programs and activity BC Soccer directly operates/facilitates that is already scheduled to occur in April 2020, we have sent communications to those groups/individuals advising them of the current situation and that there is a chance activity may be canceled/postponed if the suspension has not been lifted by the time the activity is set to occur.
- BC Soccer is also working to deliver Referee Refresher Clinics online and exploring (with Canada Soccer) on how and when coaching courses can also be delivered in the same way.

Medium-term (May plus)

- For programs and activity BC Soccer directly operates/facilitates that is scheduled to occur in May 2020 and beyond, at this time, we are continuing to work and plan as if that activity will proceed.
- Closer to the time, if the suspension is still in place we will adjust accordingly.
- Of importance, we understand there is activity in the Spring that is required to occur to support larger activity (i.e. regional league playdowns leading into Provincial Championships). For these types of situations, the appropriate BC Soccer personnel are working to develop contingency plans depending on the situation/activity. More communication will come from those individuals directly to the impacted groups/individuals.

BC Soccer Office and Contacts

Please do not come to the BC Soccer office and look to connect with BC Soccer personnel via phone and e-mail.

Safety Precautions

As a reminder, please follow the BC Centre for Disease Control recommendations for reducing the risk of exposure to novel coronavirus, which are:

- Wash your hands frequently (it is the single most effective way of reducing infection spread).
- Practice other good hygiene habits: do not touch your face/eyes/mouth with your hands and cover your mouth and nose when you sneeze or cough (ideally with a disposable tissue or the crease of your elbow).
- Clean and disinfect frequently touched workspace surfaces.
- Maintain good general health (eat a balanced diet, get enough sleep, exercise in moderation).
- Stay home if you are sick.
- Contact 8-1-1 (HealthLink BC) or your health care provider for questions about your personal health situation.

Re: COVID-19 update

BC Soccer suspends sanctioned soccer activity regarding concerns over the spread of COVID-19

Over the last 24 hours there have been even more heightened concerns over the potential spread of COVID-19. Therefore, as of March 13, 2020, with this growing and unprecedented uncertainty surrounding this health pandemic, and in accordance with Canada Soccer's direction, **BC Soccer is directing all members and affiliated clubs to suspend all sanctioned soccer activities in the province until further notice.**

BC Soccer sanctioned soccer activities include, but are not limited to, all competitions, training, practices, matches, coach and referee education and team building activities. The intent of this suspension is to limit situations of physical contact.

BC Soccer restates that the health and safety of all participants in the soccer community in BC is of the utmost importance and is central to any decision-making process. Further, in the first instance, all involved in our sport should take direction from the appropriate health authorities, including the Public Health Agency of Canada and the Ministry of Health.

To ensure the health and safety of the players, coaches, match officials and administrators in BC, BC Soccer recommends that all Youth Districts, Adult Leagues, Associate Members and Affiliated Clubs communicate to their members that they will cease operations immediately and until further notice.

BC Soccer will continue to follow the guidelines set forth by the public health authorities, government agencies and soccer governing bodies and will provide appropriate updates as things continue to unfold.

BC Soccer thanks you for your understanding while we work through this challenging and unprecedented time. We also want to take this opportunity to recognize the extra work that this decision is placing on the soccer community in BC.

Canada Soccer

March 12, 2020

Attention: BC Soccer Membership (and affiliated soccer clubs)

From: BC Soccer Association

Re: COVID-19 update

BC Soccer halts sanctioned soccer activity for events of 250 people or more while continuing to empower local organizations regarding COVID-19

As of March 12, 2020, with the growing and unprecedented uncertainty surrounding the COVID-19 health pandemic, and in accordance with the BC Health Minister Adrian Dix's directive, BC Soccer is advising all members and affiliated clubs to not proceed with sanctioned soccer activity where there will be 250 or more people in attendance, including players, officials, team staff, parents, spectators, etc. and to limit all non-essential travel outside of Canada.

BC Soccer restates that the health and safety of all participants in the soccer community in BC is of the utmost importance and is central to any decision-making process. Further, in the first instance, all involved in our sport should take direction from the appropriate health authorities, including the Public Health Agency of Canada and the Ministry of Health.

Outside of ceasing all events with 250+ people, BC Soccer maintains the position of empowering concerned youth district/adult league members and affiliated clubs to determine if they wish to amend or cancel their programming activity to mitigate concerns within their regions/locations. The reasoning for this is British Columbia is a large and diverse province and the fact is that not all communities and regions in BC have been impacted by the [46 cases \(as of March 12\) of the COVID-19](#). Further, in the majority of cases, there is limited public travel and individual matches are not considered "mass gatherings" (more than 250 people). Of course, we support local soccer organizations in BC that do cancel or postpone the activity they are organizing if they choose to.

Government

- The Canadian Government (and specific the PHAC) has assessed the public health risk associated with COVID-19 as low for the general population - <https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection.html>
- The BC Ministry of Health has also stated that the risk to British Columbians remains low - <https://www.healthlinkbc.ca/health-feature/coronavirus-disease-covid-19>

Canada Soccer

- Canada Soccer has not provided any further information or direction outside of the information that BC Soccer shared on March 9. If Canada Soccer does provide further direction and guidance, BC Soccer would of course comply.

BC Soccer Premier League

- There have been concerns raised by the clubs that participate in the BCSPL, specifically related to match play this weekend (March 14-15). Discussions occurred with the 8 BCSPL clubs and the agreed upon process for this weekend is based on club discretion whether to fulfill BCSPL fixtures. It was confirmed that there will be no forfeits or penalties applied for deciding not to play this weekend's BCSPL games, and the games will be made up if the option exists in the calendar.

See below for previous memos from BC Soccer regarding COVID-19.

Via E-mail

March 10, 2020

Attention: BC Soccer Membership (and affiliated soccer clubs)

From: BC Soccer Association

Re: COVID-19

Purpose of Communication

To provide information and guidance regarding the concerns associated with COVID-19.

Health and Safety

The health and safety for all participants in the soccer community in BC is of the utmost importance for BC Soccer and this is central to any decision-making process. In the first instance, all involved in our sport should take direction from the appropriate health authorities, including the Public Health Agency of Canada and the Ministry of Health.

Monitoring the current situation

BC Soccer in concert with Canada Soccer and its Sport Medical Committee are monitoring the COVID-19 situation.

Canada Soccer Guidance and Information

At this time, Canada Soccer has provided no notification or directive on the cancellation of soccer activity within Canada, nor has there been any limitations set. They have advised they will continue to conduct risk assessments as part of their ongoing responsibilities and will work with the relevant government agencies including Sport Canada and the Public Health Agency of Canada.

Canada Soccer are staging international friendly matches on Vancouver Island on March 27 and 31 for the Men's National Team as well as in Vancouver on April 14 with the Women's National Team. Canada Soccer currently is proceeding with the matches as scheduled.

Canada Soccer have advised that they have adopted the following measures in relation to overseas travel:

- Canada Soccer will continue to accept sanctioning applications for teams to travel; it will base its approvals on the current situation at the time of actioning the request.
- Travel to most destinations within the Concacaf region will continue to be approved at this time.
- Travel to areas identified by the Government of Canada as Level 3 risk will not be approved.
- Other areas that Canada Soccer may consider a risk will be reviewed on a case by case basis.
- Teams should be aware of the travel advisories prepared by the Government of Canada and make their decision to travel on the most recent information before they depart. For upcoming

travel, consult the Travel Advice and Advisories site for destination-specific travel information that provides important advice to help you make informed decisions regarding travel. <https://travel.gc.ca/travelling/advisories>

- A team that has already received sanctioning to play abroad or travel permits are responsible for taking its own decision on whether travel is still appropriate.

BC Demographic

British Columbia is a large and diverse province and, therefore, so too is the soccer community that we support. [As of March 9, 2020, the total number of confirmed COVID-19 cases in Canada is 77. BC has a small number of cases \(32\) having been reported in certain communities.](#) Not all regions and communities have been impacted, therefore at this time, BC Soccer restates there is no need to restrict soccer related activities for players and team officials, or to cancel games, practices and tournaments. However, considering the current and evolving situation, concerned youth district/adult league members and affiliated clubs may institute no pre/post-match handshakes during this time and/or amend their programming activity if they wish to mitigate concerns within their regions/locations.

When travelling to sporting events, BC Soccer recommends that you check for up-to-date travel advisories from the Government of Canada at: [Government of Canada COVID-19 Travel Advice](#).

Concerned Participants

BC Soccer understands that participants (and parents of participants) may have concerns with participating in soccer during this time. We strongly recommend that a common sense approach be taken and if you have individual concerns, please speak to your local team and club staff and remove yourself and/or your child from soccer activity until you are comfortable to return to play.

BC Soccer knows that the clubs, districts and leagues will understand the concerns raised and will work with their members to ensure their concerns are handled appropriately.

Other Soccer Jurisdictions

BC Soccer understands that there are soccer enthusiasts in our community that follow professional soccer teams and leagues in other parts of the world. Some of these high-profile professional leagues (i.e. English Premier League, Serie A, etc.) have taken steps such as eliminating pre-match handshakes, playing matches behind closed doors (no fans), and canceling matches. In the first instances, in these cases, a higher authority (i.e. the government) in these countries have acted, therefore the soccer organizations have followed their lead.

As outlined above, BC Soccer takes its lead from Canada Soccer who is working with the relevant government agencies including Sport Canada and the Public Health Agency of Canada to ensure soccer is safe in our country.

Reminder on steps to reduce risk and exposure

As a reminder, BC Soccer would like to share the BC Centre for Disease Control recommendations for reducing the risk of exposure to novel coronavirus:

- Wash your hands frequently (it is the single most effective way of reducing infection spread).
- Practice other good hygiene habits: do not touch your face/eyes/mouth with your hands and cover your mouth and nose when you sneeze or cough (ideally with a disposable tissue or the crease of your elbow).
- Clean and disinfect frequently touched workspace surfaces.
- Maintain good general health (eat a balanced diet, get enough sleep, exercise in moderation).
- Stay home if you are sick.
- Contact 8-1-1 (HealthLink BC) or your health care provider for questions about your personal health situation.

Further information about novel coronavirus is available on the [BC Centre for Disease Control website](http://www.bccdc.ca).

Addition Resources

The following resources are available for your use in your community:

- This [joint message](#) is from the Sport Medicine Advisory Committee comprised of Chief Medical Officers from the Canadian Olympic Committee, the Canadian Paralympic Committee, and the Canadian Olympic and Paralympic Sport Institute Network (COPSIN). It is meant to guide National Sporting Organizations (NSOs) in decision-making with respect to travel to competitions within and outside Canada. Information has been obtained from the World Health Organization, Government of Canada and Australian Institute of Sports websites. This advisory will be updated regularly and distributed to NSOs and other high-performance sport partners.
- The latest WHO statements can be found at [WHO website](#) on Coronavirus disease (COVID-19) outbreak.

Re: Coronavirus Awareness & Prevention

In follow up to the below communication from January 31, 2020, we wish to restate that there is no need at this time to restrict any soccer related activities for players and team officials, or to cancel games, practices and tournaments. Based on the recent development, concerned members and clubs may institute no handshakes during this time if they wish.

As a reminder, BC Soccer would like to share the BC Centre for Disease Control recommendations for reducing the risk of exposure to novel coronavirus:

- Wash your hands frequently (it is the single most effective way of reducing infection spread).
- Practice other good hygiene habits: do not touch your face/eyes/mouth with your hands, and cover your mouth and nose when you sneeze or cough (ideally with a disposable tissue or the crease of your elbow).
- Clean and disinfect frequently touched workspace surfaces.
- Maintain good general health (eat a balanced diet, get enough sleep, exercise in moderation).
- Stay home if you are sick.
- Contact 8-1-1 (HealthLink BC) or your health care provider for questions about your personal health situation.

Further information about novel coronavirus is available on the [BC Centre for Disease Control website](http://www.bccdc.ca).

-End-

From: BC Soccer Association

Re: Coronavirus Awareness & Prevention

The following is information provided by the Ministry of Health:

B.C. Provincial Health Officer Bonnie Henry has announced that the first case of novel coronavirus has been confirmed in B.C. Further details are available [HERE](#).

BC Soccer is aware of the virus, and ongoing monitoring throughout B.C., nationally and internationally. We are confident that all the affected agencies are doing their utmost to ensure all necessary precautions are being taken to prevent the spread of infection. There is no need at this time to restrict any soccer related activities for players and team officials, or to cancel games, practices and tournaments.

As a simple precaution and reminder, BC Soccer would like to share the BC Centre for Disease Control recommendations for reducing the risk of exposure to novel coronavirus:

- Wash your hands frequently (it is the single most effective way of reducing infection spread).
- Practice other good hygiene habits: do not touch your face/eyes/mouth with your hands, and cover your mouth and nose when you sneeze or cough (ideally with a disposable tissue or the crease of your elbow).
- Clean and disinfect frequently touched workspace surfaces.
- Maintain good general health (eat a balanced diet, get enough sleep, exercise in moderation).
- Stay home if you are sick.
- Contact 8-1-1 (HealthLink BC) or your health care provider for questions about your personal health situation.

Further information about novel coronavirus is available on the [BC Centre for Disease Control website](#).
